(Co-Investment Vehicle V), a United Kingdom entity, will have a limited partnership interest of approximately 24.45% in iCON Mesa, thus, diluting the interest of iCON Partners V from 60% to approximately 35.55%, and (ii) Managed Co-Investment Vehicle V-B, L.P. (Co-Investment Vehicle V-B), Inc., a United Kingdom entity, will have a limited partnership interest of approximately 16.3% in iCON Mesa, thus, diluting the interest of iCON Investments V-B from 40% to approximately 23.7%.

On October 5, 2022, the National Telecommunications and Information Administration notified the Commission that the Committee has no objection to the Commission granting the applications. On August 23, 2019, the Commission granted the application for transfer of control of NTS Communications, Inc., that holds an international section 214 authorization (ITC-214-19971024-00657), to Clarity Telecom, LLC (Clarity). The grant of the application was conditioned on Clarity and NTSI, Inc. (NTSI) abiding by the commitments and undertakings set forth in the August 16, 2019 Letter of Agreement from the Chief Financial Officer, Clarity, and the Chief Executive Officer, NTSI, to the Assistant Attorney General for National Security, Department of Justice (2019 LOA). See Applications Granted for the Transfer of Control of Licensees of NTS, Inc. To Clarity Telecom, LLC D/B/A Vast Broadband, WC Docket No. 19-7; Applications Granted for The Transfer of Control of Clarity Telecom Holdings, LLC To Python Intermediate II, LLC, WC Docket No. 19-16, Public Notice, 34 FCC Rcd 7282 (WCB/IB/MB/WTB 2019).

On September 30, 2022, the Committee for the Assessment of Foreign Participation in the United States Telecommunications Services Sector (Committee) notified the Commission that it has terminated the 2019 LOA upon which the grant of the transfer of control application was conditioned. The Committee requests that the Commission remove compliance with the 2019 LOA as a condition to the grant of the application because "such mitigation is no longer warranted." We grant the Committee's request and remove the condition to comply with the 2019 LOA from ITC-T/C-20190128-00007. The Committee letter may be viewed on the FCC's website through the International Bureau Filing System (IBFS) by searching for ITC-T/C-20190128-00007 and accessing the "Other Filings related to this application" from the Document Viewing Area.

CONDITIONS APPLICABLE TO INTERNATIONAL SECTION 214 AUTHORIZATIONS

- (1) These authorizations are subject to the Exclusion List for International Section 214 Authorizations, which identifies restrictions on providing service to particular countries or using particular facilities. The most recent Exclusion List is at the end of this Public Notice. The list applies to all U.S. international carriers, including those that have previously received global or limited global Section 214 authority, whether by Public Notice or specific written order. Carriers are advised that the attached Exclusion List is subject to amendment at any time pursuant to the procedures set forth in Streamlining the International Section 214 Authorization Process and Tariff Requirements, IB Docket No. 95-118, 11 FCC Rcd 12884 (1996), para. 18. A copy of the current Exclusion List is maintained in the FCC Reference Information Center and is available at <https://www.fcc.gov/exclusion-list-international-section-214-authorizations>. It is also attached to each Public Notice that grants international Section 214 authority.
- (2) The export of telecommunications services and related payments to countries that are subject to economic sanctions may be restricted. For information concerning current restrictions, call the Office of Foreign Assets Control, U.S. Department of the Treasury, (202) 622-2520.
- (3) Carriers shall comply with the requirements of Section 63.11 of the Commission's rules, which requires notification by, and in certain circumstances prior notification by, U.S. carriers acquiring an affiliation with foreign carriers. A carrier that acquires an affiliation with a foreign carrier will be subject to possible reclassification as a dominant carrier on an affiliated route pursuant to the provisions of Section 63.10 of the rules.
- (4) A carrier may provide switched services over its authorized resold private lines in the circumstances specified in Section 63.23(d) of the rules, 47 CFR § 63.23(d).
- (5) Carriers shall comply with the "No Special Concessions" rule, Section 63.14, 47 CFR § 63.14.

Carriers shall not otherwise file tariffs except as permitted by Section 61.19 of the rules, 47 C.F.R. § 61.19. Except as specified in Section 20.15 with respect to commercial mobile radio service providers, carriers regulated as non-dominant, as defined in Section 61.3, and providing detariffed international services pursuant to Section 61.19, must comply with all applicable public disclosure and maintenance of information requirements in Sections 42.10 and 42.11.
- (7) International facilities-based service providers must file and maintain a list of U.S.-international routes on which they have direct termination arrangements with a foreign carrier. 47 CFR § 63.22(h). A new international facilities-based service provider or one without existing direct termination arrangements must file its list within thirty (30) days of entering into a direct termination arrangement(s) with a foreign carrier(s). Thereafter, international facilities-based service providers must update their lists within thirty (30) days after adding a termination arrangement for a new foreign destination or discontinuing an arrangement with a previously listed destination. See Process For The Filing Of Routes On Which International Service Providers Have Direct Termination Arrangements With A Foreign Carrier, ITC-MS-20181015-00182, Public Notice, 33 FCC Rcd 10008 (IB 2018).
- (8) Any U.S. Carrier that owned or leased bare capacity on a submarine cable between the United States and any foreign point must file a Circuit Capacity Report to provide information about the submarine cable capacity it holds. 47 CFR § 43.82(a)(2). See <https://www.fcc.gov/circuit-capacity-data-us-international-submarine-cables>.
- (9) Carriers should consult Section 63.19 of the rules when contemplating a discontinuance, reduction or impairment of service.

- (11) To the extent the applicant is, or is affiliated with, an incumbent independent local exchange carrier, as those terms are defined in Section 64.1902 of the rules, it shall provide the authorized services in compliance with the requirements of Section 64.1903.

(12) Except as otherwise ordered by the Commission, a carrier authorized here to provide facilities-based service that (i) is classified as dominant under Section 63.10 of the rules for the provision of such service on a particular route and (ii) is affiliated with a carrier that collects settlement payments for terminating U.S. international switched traffic at the foreign end of that route may not provide facilities-based switched service on that route unless the current rates the affiliate charges U.S. international carriers to terminate traffic are at or below the Commission's relevant benchmark adopted in International Settlement Rates, IB Docket No. 96-261, Report and Order, 12 FCC Rcd 19806 (1997). See also Report and Order on Reconsideration and Order Lifting Stay in IB Docket No. 96-261, FCC 99-124 (rel. June 11, 1999).
